The pass must be presented at each inspection requested by the operator.

Not holding a ticket, use of a non-compliant ticket **or non-compliance with the police regulations posted at the lift loading area recorded by a sworn inspector** gives rise to a fixed indemnity, which is increased, where applicable, by closing costs, the amount of which is set under current regulations.

The forging of a ticket or use of a forged ticket gives rise to criminal proceedings as well as to the payment of damages.

In an effort to combat fraud, the client is informed by way of a logo that they are automatically photographed when they pass through the turnstiles. These photographs are then used by sworn inspectors in regular inspections with the sole purpose of ensuring that no exchange takes place, since the pass is neither transmissible nor transferrable. Photographs taken will be kept for the duration of the ticket and up to two days thereafter. Only the first and the last photo of each day are retained; all other photos are deleted at the end of each day. These photos are processed as personal data as described in paragraph 8.

In all the aforementioned cases, the passes may be withdrawn for the purpose of evidence and in order to return them to their owners.

3.5 - Transfer and resale prohibited

During the term of validity of the ticket, the pass cannot be assigned or transferred. It cannot be lent free of charge or for a fee.

Reductions or complimentary passes are proposed to various categories of individuals in accordance with terms and conditions available at sales outlets and on presentation of documents to prove the special rate when making the purchase. No photocopies of supporting documents will be accepted. No reduction or complimentary reduction shall be granted after the purchase.

The age of the customer to be taken into account will be the age determined on the date of the commencement of validity of the pass to be issued.

5 - Refund of passes

Stay/season passes take account of a special sliding scale.

If the customer has not purchased his pass directly from the Société des 3 Vallées, he must make any complaint which relates to issues that occur whilst the General Terms & Conditions of Sale and use hereof are implemented, beforehand with his reseller..

Any passes found can be handed into at the central cash desk.

5.3 - Closing or service outage

The Vendor offers reduced rates on the "3 hours" or "1 day" Courchevel Valley or Meribel Valley Pass, in the event of bad weather or snow conditions that have a significant impact on ski-lift operating conditions.

In the event of an interruption of more than five (5) consecutive hours AND interruption of over 80% of the lifts to which the ticket gives access, the holder of a Multi-Day pass (2 days or more, not including season passes) may be offered compensation for the loss sustained.

The holder may, upon delivery of supporting documents (invoice or proof of sale and duly completed "Customer Comments" form), be granted:

> either an immediate extension in days,

> or a credit note in euros to be used no later than the end of the second season following that for which the refund is granted and calculated proportionally to the duration of the closing of the lifts,

> or deferred rate compensation set by S3V and calculated proportionally to the duration of the closing of the lifts.

The supporting documents must be produced within two months following the service outage. Compensation shall be made within four months following receipt of the documents.

No refund can be granted before the expiration date of the pass concerned.

NB : Only Passes which were obtained and paid for directly by Clients to the Vendor may result in compensation. In all other cases, the Client must refer to the General Conditions of Sale of the entity from whom the Pass was purchased.

The above provisions do not apply to the season pass which benefits from a very good sliding scale (As well as to the Liberty, 2/7 and Skiflex passes). The vendor cannot in fact guarantee 100% opening of the ski area during all the season taking into account the natural high mountain environment in which the operations of the lifts are located. For any season (Winter or summer or winter+summer), from 65% of opening days, continuous or not without service interruption of more than five (5) consecutive hours AND at interruption of over 80% of the lifts to which the ticket gives access, the vendor's service is deemed acquired.

Refund procedures will be put in place once the season is over.

5.4 - Closure of ski lifts by decision of the public authorities due to the Covid19 health crisis

In the event of a health crisis with a decision to administrative closure of the ski lifts, the Customer has the option of requesting, free of charge, the reimbursement of his pass (invoice or proof of sale and duly completed "Customer Comments" form).

The amount of the refund will be calculated in proportion to the days closed by administrative decision during the period of validity of his Pass.

In the case of a "Season" Pass, only the closure of the ski lifts to which the "Season" Pass gives access, not allowing the guaranteed number of opening days defined above to be reached, will result in compensation.

The amount of said compensation will be calculated as follows:

$D = P \times (\text{number of "guaranteed opening days" - J}) / \text{Number of "guaranteed opening days"}$

D: compensation

P: Price paid

J: Number of effective opening days for the Season

The reimbursement can only be calculated once the closing date of the Season has been reached, in order to take into account, the hypothesis of a possible reopening of the ski lifts during the Season

5.5 - Illness or accident and other personal event
